**For the week of April 18, 2016**

**This Week:**

No hot topics.

**Upcoming:**

**Donlin Mine:** On April 30, Region 10 will have two deadlines associated with this project: comments on the Corps of Engineers' draft EIS are due under our NEPA and CAA § 309 authorities; and the Corps' 404 public notice period closes, triggering our deadline to invoke dispute resolution regarding issuance of a CWA § 404 permit for the project under the 404(q) Memorandum of Agreement. Review of the DEIS and the CWA § 404 public notice is ongoing. The RA will be briefed on April 20. Significant issues include: the lack of a health impact analysis (HIA) in the DEIS; functional assessment methodologies; conflicting estimates of aquatic resource impacts in the DEIS and the public notice; and insufficient information to assess issues surrounding direct and indirect effects and avoidance, minimization, and compensatory mitigation of aquatic resources. Contacts: Mark Jen (1-3411); Matt LaCroix (1-1480).

**For the ET Notes from April 11 ET Meeting Roundtable**

No ET meeting.
